

### English

The children are making good progress with their reading and it is brilliant to see so many books being read at home. Keep it up!

We will continue to work on our phonics knowledge and work in 2 groups, a phase 3 and a phase 5 to ensure we are all developing.

We will continue to develop our writing skills to ensure we are listening to all the sounds in words and using finger spaces to separate our words.

### Maths

We will continue to work within 0 – 20 using part, whole models and bar models to represent addition and subtraction, as well as word problems.

We will then think about 2D and 3D shapes, as well as naming and describing them.

### Science

As Scientific Superstars, we will think about 'Seasonal Changes' and order the months of the year as well as the seasons. We will go for a walk to spot some of the signs of Autumn and Winter as well as matching clothes to weather.

We will also be creating our own weather stations.

### History

In History we will look at 'Toys' and how they have changed over time, thinking about advances in technology and the invention of plastic.

### Geography

In Geography we will look at the weather and the changing seasons. We will think about the different clothes that are suitable for different weathers and how weather effects certain

### PSHE/RE

In PSHE we will be learning about dangers and how to keep ourselves safe and who our trusted adults are.

Whilst in RE we will be learning about the Christian story of Christmas and its traditions.

### Art/DT

In art the children will continue to learn how using warm and cold colours can affect the look and feel of a painting and then apply this to their own artwork.

While in DT we will make wind socks and weather stations.

### Music

In music we will be practising our songs for our Christmas Performance.

### ICT

This half term we will be continuing to practise logging on as well as learning about algorithms and using turtle programmes.

### PE

We will continue our Tuesday and Friday PE sessions - focussing on movement, jumping and landing safely. As well as our Friday sessions led by NUFC Foundation.

## Weather and Seasons:

### Autumn 1
