

PE

We will be joined by the Newcastle United Foundation who will give us insider information on how professional athletes keep themselves *Match Fit*.

We will also be putting our dancing shoes on to combine learning Makaton with some choreographed dance routines. Get ready to check out our groovy moves!

Computing

We will spend some time practising our typing skills to become quicker and more accurate.

We will also refresh how to stay safe on the internet and how to research factual information.

RE & PSHE

During RE lessons, we will be exploring the festival of Diwali which is celebrated in Hinduism.

And in PSHE, we will be thinking about our unique talents and the importance of gratitude to our well-being.

ENGLISH

This term we will be revising parts of speech such as: nouns, adjectives, verbs, adverbs, adjectives and trying to improve our writing by choosing exciting vocabulary.

We will be using the internet to research facts for some non-fiction writing all about wild animals. We will be watching videos of wildlife presenter Steve Backshall to develop to help us write some fact-tastic information reports.

We will take part in weekly English skills sessions to develop comprehension skills as well as continuing to develop spelling, grammar and handwriting skills.

Autumn Term 1-YEAR THREE **Excellent Egyptians**

MATHS

This half term we will be looking at number and place value. Children will be identifying, representing and estimating numbers, recognising the place value of each digit in a three-digit number and counting from 0 in multiples of 4,8,50 and 100. We will have a strong focus on developing *the* mathematical language that will help us to explain our methods and ideas.

We will continue your child's journey towards mastery of their times tables. Please do continue to practise times tables with your children every week.

Mastery of tables facts is key to growing confidence in mathematics.

SCIENCE

We will be thinking about what animals, including humans, need to stay healthy. We will explore the main food groups and discuss how to make smart choices when we choose snacks.

We will also find out about the human skeleton. Dem bones, dem bones!

Languages

We will have an introduction to French – learning how to greet people and introduce ourselves.

THE ARTS

This term we will be learning to control the pitch and tone of our singing voices by learning our class songs.

Piet Mondrian will be our inspiration for a piece of digital art.
