

$36 + 6$

$36 + \square = 40$

$36 + 6 = \square$

$27 + 5$

$27 + \square = 30$

$27 + 5 = \square$

$47 + 5$

$47 + \square = 50$

$47 + 5 = \square$

$48 + 6$

$48 + \square = 50$

$48 + 6 = \square$

$58 + 4$

$58 + \square = 60$

$58 + 4 = \square$

$69 + 6$

$69 + \square = 70$

$69 + 6 = \square$

Use towers of 10 and loose cubes to help you complete the additions.

Write the missing numbers to complete the additions.

Write additions where the number added is 8 and the answer ends in 1.
